

# Green and Food Waste

## What to do with it?

### Create Your Own Eden and compost at home.

You can use a compost, bokashi or worm bin – discount vouchers available from Nelson City and Tasman District Councils. Details of where the bins and worms can be purchased are identified in the leaflet. You can also create your own compost pile or build your own bin.

Alternatively you can take your waste to the following places (It's cheaper per volume to take your greenwaste to these sites than to dispose of it as general rubbish at the Resource Recovery Centres).

- **Greenwaste to Zero**, Richmond
- **Resource Recovery Centres** at Mariri; Takaka; and Collingwood
- **Nelson City Council Transfer Station**  
*Charges apply to all centres. No flax leaves, toitoi, bamboo or palm leaves are accepted.*
- **Wholesale Landscapes, Stoke and Brightwater** (take ALL greenwaste)

**Can Plan** and **NELMAC** can collect green waste.

**Scott's HIR-A-BIN Motueka** will provide bins and mini skips and, if they contain greenwaste only, they will deposit them to the green waste disposal areas of the Resource Recovery Centres.

## Contact Details

### Resource Recovery Centres (RRCs)

Mariri, Robinson Road

Takaka, Scotts Road
